To whom it may concern,

Concerning the election methods for CE in 07 and Legco in 08, as stated in the Basic Law, universal suffrage will be the best and ultimate goal. So, why not a good opportunity to let both elections to be elected by universal suffrage.

I believe the (Central / HKSAR) Gov thinks it will be in an hurry BUT nothing will come out if nothing is on trial. For the CE in 07, the number of people in the election committee is so small and biased that they are NOT representatives.

Please take every citizen's say into account, otherwise the governance won't be effective.

For the FC, the group votes should be cancelled, substitute by personal votes. Again, universal suffrage should be encouraged. Don't you think a bus company does represent the opinions of ALL bus drivers?! Actually, the FC is an unfair and old-fashioned election method.

Thank you for your attention and I hope my say will be considered.

Cheers,
Thierry T.C. Chan
