We have been working in the social security field for years. In our day-to-day work, we provide social security (Comprehensive Social Security Assistance, Social Security Allowance, Emergency Relief, Traffic Accident Victims Assistance, Criminal and Law Enforcement Injuries Compensation) services to over 1,000,000 recipients. Nevertheless, we are not grouped as professionals when we talk about the **Election Ordinance**, e.g. **we are not included in the Election Committee Subsectors, NOT under social welfare.**

We strongly wish to be considered the right to vote, if not please let us know the reasons.

**Yours sincerely,
Social Security field officers**
